

Food Map of the U.S. Handout

Instructions:

- Choose a favorite meal and make a list of up to four main ingredients. For example, a burrito might include cheese, tomatoes, beans, and rice.
- For each ingredient, plot on the map your best guess (or research it on the Internet) of where each ingredient was produced. If any ingredients come from outside the U.S., write the name of the country of origin along the edge of the map.
